Bachelor of Engineering

SVERI'S COE, PANDHARPUR

📅 Sept 2017 – June 2021

Percentage: 71%
CGPA: 8.4

SKILLS

React JS/TS   Next JS/TS   HTML   CSS   Bootstrap
JavaScript   Typescript   Redux-Tool kit   Rest API   graphQL
react-router-dom   figma   Trello

VERSION CONTROL

Git   Github   Github Desktop   Gitlab   Source Tree

DEPLOYMENT

Vercel   Netlify

COURSEWORK

Web Development   E2E Development

DEV TOOLS

VS Code   Intellij IDEA   Postman

PROJECT

ALLBIRDS

- Developed a responsive e-commerce website using React JS, featuring modern UI with navigation menus, category filtering, and a user-friendly product catalog.
- Implemented authentication flows for login and account creation, enhancing the user experience with secure registration.
- Designed reusable components for product listings, navigation bars, and form handling, ensuring efficient and scalable code.
- Integrated React Router for smooth navigation across various sections of the site.
- Managed state using Redux-toolkit for optimal performance and efficient user interactions.

HRMS

- Architected HRMS, a comprehensive solution for streamlined employee attendance, salary, profiles, and experience tracking.
- Developed an intuitive front-end interface, ensuring a seamless user experience.
- Contributed to backend development by integrating functionalities crucial for company HR needs.
- Blended design and functionality for a robust Human Resource Management System.

DU

- A React js based web application catering to the diverse services provided by a leading telecommunications company.
- Fixed UI bugs by closely analyzing small design details in Figma to ensure accurate product development.
- Conducted technical reviews of Figma designs to ensure alignment with development requirements and product specifications..
